Homework 10

04 October 2021

```
1) private static void swapNN(NaturalNumber n1, NaturalNumber n2) {  
    NaturalNumber temp = new NaturalNumber2();  
    temp.copyFrom(n1);  
    n1.copyFrom(n2);  
    n2.copyFrom(temp);  
}
```

```
2) private static void swapNN(NaturalNumber n1, NaturalNumber n2) {  
    NaturalNumber temp = new NaturalNumber2();  
    temp.transferFrom(n1);  
    n1.transferFrom(n2);  
    n2.transferFrom(temp);  
}
```

```
3) private static void square(NaturalNumber n) {  
    NaturalNumber temp = new NaturalNumber2(n);  
    NaturalNumber temp2 = new NaturalNumber2();  
    temp2.copyFrom(temp);  
    temp.multiply(temp2);  
    n.copyFrom(temp);  
}
```
